CLAY CITY, KY., THURSDAY, NOVEMBER 24, 1910.

NO. 47

## Bumper Corn Crop.

While this year we have raised the poorest corn, crop probably ever grown in Powell county, the State upon the whole and the other states have this year produced a bumper crop. The Crop Reporting Board of the Bureau of Statistics of the United States Department of Agriculture reports the production of 194,75,000 in Kentucky during 1910. The average production per acre is placed at 28.6 bushels. This is considered a good yield. While 28 bushels per acre is considered a good yield the Department says the yield could be easily doubled by the proper selection of seed, scientific methods of cultivation and the proper rotation of crops where luminous crops are grown for no less than two years out of three.

## Well up With Work.

Most farmers are through gathering corn and many have killed their hogs. Such beautiful fall weather is rarely experienced and the ideal hog killing weather has enabled farmers to get completely up with their fall work. The many freezes have killed all the grass except where there is bluegrass so most farmers of the county are having to feed the same as in the winter time.

"The Big Pistol" is the name of a new paper at Campion. The paper is in a class to itself and anyone who knows Senator Benj. Sewell, its editor, may know its class. It is unique, original and Republican in politics.

**Every Body Needs**  
a good salve and Dr. Bell's Anti-septic Salve is the best. It is a creamy snow white ointment. Guaranteed for all skin diseases. 25c sold everywhere.

## No Excuse.

There are all sorts of excuses for losing a job, most of them poor; all or most of them old, so the following new one may prove of interest: After losing four positions within a year just because of her beauty, Mary Todd has left Washington and will try her fortune elsewhere. Miss Todd set out to be a stenographer. Her employer got mixed up in his dictation and included phrases that could not have been part of the correspondence. As a shop girl the floor walkers strolled too often near her counter. As a milliner she aroused the envy and jealousy of customers. However, this one instance of hard luck isn't going to result in any of the fair ones disfiguring their features or holding a hair auction.

## Circuit Court Convenes.

Circuit Court convened at Stanton Monday with Judge J. M. Benton on the bench and Commonwealth Attorney B. A. Crutcher prosecuting. There was a good crowd present and business was dispensed with quickly. The Rev. J. B. White, of Irvine, and G. B. Stamper, of Campion, were visiting attorneys.

## Thanksgiving Services.

Thanksgiving services will be held at the Presbyterian church this morning at 10:30 o'clock. The Rev. J. B. Duggett, pastor of the church, will conduct the services. The long service will also be a feature of the meeting.

## Whooping Cough

It is an old saying that whooping cough must run its course but the use of Dr. Bell's Pine-Tar-Honey has demonstrated beyond doubt that such is not the case. It can be cured in a week of this remedy.

## When you are Ready for your New Suit...

We are ready for you. The new spring styles we are showing in men's and young men's suits will appeal to the most critical and exacting dresser.

It will pay you to see the excellent range of styles, patterns and colors we are showing. We have clothing that is appropriate for men in every walk of life. Come in and glance through—you will appreciate the grace, drape, style and excellence of fit and finish.

We are showing a splendid line of Men's Spring Suits.

The fabrics were tested and well selected—much care given to the cutting and making—the fit and finish will stand the closest scrutiny. We honestly believe them the finest garments in the State, and you'll agree with us once you see them.

**SHIMFESSEL'S.**

## Traveling Libraries.

The traveling libraries which have for a number of years been maintained by the women's clubs in the mountains of Kentucky will be thoroughly re-organized and turned over to the Kentucky Library Commission; new libraries will be added by purchase and it will be the aim of the Commission not only to continue the supply of traveling libraries in the mountains where they have been received with so much appreciation, but also to circulate them throughout the state among those who are without library facilities.

These traveling libraries will consist of fixed groups of fifty or more well selected books for general reading and study for adults, young people and children. They will be sent free of charge except the cost of transportation, and under such conditions and rules as shall protect the interests of the state and best increase the efficiency of the service.

Requests for information, for blanks for traveling libraries, or books from the general loan collection should be addressed to the Library Commission, The Capitol, Frankfort, Kentucky.

## Drop in Prices.

A press dispatch from Danville says: Fat hogs have taken a decided drop in Boyle county and the farmers, fearing still lower prices, are placing their swine on the market on a wholesale plan. J. L. Hutchins, a local dealer, bought 350 head of 300 pound hogs at \$6.65 per hundred. This is lowest price that fat hogs have sold for in Boyle county in many months. It is believed that there will be a steady drop in the price of cattle also.

Hogs in the Bluegrass belt have declined until they are now bringing but 62 cents. This is a considerable falling off within the past few months. Corn has also gone down until it is now selling at \$2. and \$2.25 per barrel delivered.

Prof. West French, of Irvine, is conducting a class in vocal music at the Vaughn's Mill Christian Church.

The driest period of the year is now existing, but it comes at a time in which no injury results.

## A Valuable Gift.

To the first fifty subscribers, new or old, who pay their subscriptions a year in advance, we will give free of charge a year's subscription to the Southern Agriculturist, Nashville, Tenn., worth 50 cents.

We positively have only 50 subscriptions to this fine semi-monthly farm paper to dispose of in this way, and the first calls will get them. Do you want one?

Sample copies of the Southern Agriculturist may be had free of charge at our office.

Dr. C. B. Dickson, dentist from Ashland, will be in the Hotel this city Thursday, Friday and Saturday, November 24, 25 and 26, to practice his profession.

## To Prevent Merger.

Attorneys representing the city of Paris and a large number of the wholesale merchants of Paris have filed suit against the L. & N. railroad to prevent the merger of that road and the Frankfort & Cincinnati railroad. The petition alleges that the city of Paris subscribed \$50,000 to help build the F. & C. which was formerly the Kentucky Midland and the subscription was made with the understanding and agreement that the new road was forever to be a competing line and should not be absorbed by any road leading into Paris.—Winchester Democrat.

## A Suggestion.

The Times suggests that the citizens of Powell county living near the new bridge to be put at Lulbegrud get to work and make the fill to the butments and have it ready for travel soon as the bridge may be completed. This work can be better done now than after the bridge is up.

At the Eddyville penitentiary the electric appliances are being installed to be ready for the execution of the first one sentenced to death. There will be none installed at Frankfort as the penitentiary there is to be changed into a reformatory school.

Mrs. Luher Loving is visiting friends in Lexington this week.

**Dr. Bell's Antiseptic Salve** is guaranteed for eczema, scrofula, tetter, ringworm, running sores, chapped hands and lips, pimplies on the face, black heads, barbers itch, sun burn, insect bites, fever sores and nasal catarrh. 25c

## School of Journalism.

Eighteen States and two foreign countries are represented in the enrollment at the beginning of the academic year of the School of Journalism of the University of Missouri, at Columbia, Mo. The States from which students are enrolled are California, Florida, Georgia, Illinois, Indiana, Iowa, Kentucky, Mississippi, Missouri, Nebraska, New Jersey, New York, Ohio, Oklahoma, Pennsylvania, South Dakota, Texas, and Tennessee; and the foreign countries are Canada and China. The number of students shows an increase of twenty-five per cent over the total enrollment.

Miss Carrie Belle McPherson, of Winchester, is visiting Miss Grace Shimfessel.

## NOTICE TO HUNTERS.

SEC. 1259, KENTUCKY STATUTES:—Any person who shall enter upon the inclosed lands of another for the purpose of shooting, hunting or fishing, without the consent of the owner or occupant of said lands, shall be fined not less than five nor more than twenty-five dollars.

The following land holders hereby warn all persons not to shoot, hunt or otherwise trespass upon their property:

Senator Bradley has appointed Representative Lillard, of Danville, Democrat, his private Secretary. Lillard is one of the four Democrats that voted for Bradley against Beckham and which elected Bradley. Lillard is a druggist at Danville, a local option town, and after he voted for Bradley engaged further in the drug business which to have later been a bluid tiger from the number of fines, amounting to thousands of dollars, imposed upon him for selling liquor. The payment of these fines broke him up. The temperate Democrats and Prohibitionists that voted for this whiskey combination of Willson, Bradley & Co. can now blush with shame. But we told them so before hand.

President Taft said before he signed the present tariff bill that it was far from satisfactory but would sign it because it was the best possibly that could be gotten at that time. In the campaign he said it was the best tariff law ever enacted, and now he says there may possibly be some of the schedules too high. It seems that most of the people are agreeing with the President in his last views of the tariff.

Business failures in the United States for the week ending November 17 were 248 against 207 the week previous, an increase of 41 in one week. The Republicans will soon begin to lay all the failures on the Democratic party.

It seem that the saloons in this city will now get to sell until their license expire, and about that time we may expect a decision in our local option election contest.

There is but one probability of the electing a Republican President two years hence and that would be if Langley be nominated. He is the only one that can run any these days it seems.

Every time we are at the depot, and see trains go through, we wonder if half the travelers wouldn't be better off at home.

Instead of Langley calling on Teddy for help we think Teddy had better have called upon Langley.

One thing about Teddy he is the best lion hunter that ever crossed the water.

Deafness Cannot Be Cured  
by local applications, as they can-  
not reach the diseased portion of  
the ear. There is only one way to  
cure deafness, and that is by con-  
stitutional remedies. Deafness is  
caused by an inflamed condition of  
the mucous lining of the Eustachian  
Tube. When this tube is inflamed  
you have a rumbling sound  
or imperfect hearing, and when it is  
entirely closed, Deafness is the re-  
sult, and unless the inflammation  
can be taken out and this tube re-  
stored to its normal condition,  
hearing will be destroyed forever;  
nine cases out of ten are caused by  
Catarrh, which is nothing but an  
inflamed condition of the mucous  
surfaces.

We will give One Hundred Dol-  
lars for any case of Deafness (caus-

## WELCOME WORDS TO WOMEN

Women who suffer with disorders peculiar to their sex should write to Dr. Pierce and receive free the advice of a physician of over 40 years' experience—a skilled and successful specialist in the diseases of women. Every letter of this sort has the most careful consideration and is regarded as sacredly confidential. Many sensitively modest women write fully to Dr. Pierce what they would shrink from telling to their local physician. The local physician is pretty sure to say that he cannot do anything without "an examination." Dr. Pierce holds that these distasteful examinations are generally needless, and that no woman, except in rare cases, should submit to them.

Dr. Pierce's treatment will cure you right in the privacy of your own home. His "Favorite Prescription" has cured hundreds of thousands, some of them the worst of cases.

It is the only medicine of its kind that is the product of a regularly graduated physician. The only one good enough that its makers dare to print its every ingredient on its outside wrapper. There's no secrecy. It will bear examination. No alcohol and no habit-forming drugs are found in it. Some unscrupulous medicine dealers may offer you a substitute. Don't take it. Don't trifle with your health. Write to World's Dispensary Medical Association, Dr. R. V. Pierce, President, Buffalo, N. Y.—take the advice received and be well.

**May Not Sit in Congress.**  
A special from Washington says:

"It would not be surprising to those who are keeping close touch on affairs relating to the organization of the next House should the Democrats prevent the swearing in of Caleb Powers, of Kentucky. They are now studying the precedent offered in the Brigham Roberts case, when the Speaker refused to administer the oath to the Utah Congressman because of objection made by Representative Taylor, of O-

bio, who came from the old McKinley district.

The women of the country vigorous in their protest against the seating of Roberts on the ground that he had been guilty of polygamy. In his case the mere protest of a member was sufficient to cause the Speaker to direct that Roberts stand aside. An investigation which followed resulted in an unfavorable report, and Roberts never became a full-fledged member.

"Some demands are said to be under contemplation advancing one of their members when the Kentucky delegation is called upon in the organization of the House to protest against the oath being administered to Powers. It will be in order for the Speaker to direct him to step aside and

and for the House to investigate the charges that may be advanced as reason why he should not be allowed to take his seat. Just what form the charges will take, if any are made, has not been decided, but they will relate, it is said, to Powers' alleged participation in the assassination of Gov. Goebel, of Kentucky.

"Representative Ollie James, of Kentucky, who was an intense Goebel partisan, may, it is thought, take a hand in an anti-Powers crusade."

#### Sale Now On.

Over 100 towns in Kentucky have taken up the sale of Red Cross Christmas seals. It is aimed to place the seals on sale in every city and town of 100 inhabitants and over. Ten thousand dollars for the prevention of tuberculosis in Kentucky this year is the slogan.

The National Red Cross gets 12½ per cent. for furnishing the seals and the advertising matter. The rest will be used to fight consumption in every county and village in Kentucky.

The money received from the Red Cross Christmas seals will make it possible for the State association to carry out its programme of lectures and health exhibits.

Final estimates of the Crop Reporting Board at Washington, D. C., are that the yield per acre of this year's Kentucky tobacco crop was 810 pounds, compared with 835 pounds last year and 833 pounds as an average yield for ten years past. The total production of tobacco in the State is estimated at 881,024,000 pounds, compared to 850,700,000 in 1909. The quality of this year's crop is 85 per cent, compared with 87 last year. The Kentucky corn crop's yield was 28.6 bushels per acre that year, as against 29 bushels last year and 26.7 bushels as the ten year average. The production of corn is 104,075,000 bushels this year, as against 103,472,000 bushels in 1909. The quality is 87 per cent this year against 84 per cent last year.

Business as well as scientific education for the farmer was advocated by State Master Creasy, of Pennsylvania, chairman of the committee on agriculture, in his annual report before the National Grange, in session at Atlantic City.

The bodies of John G. Carlisle, former Secretary of the Treasury, and his wife will be transferred from Washington to Covington the last of this week for final interment.

Nearly all women suffer at times from female ailments. Some women suffer more acutely and more constantly than others. But whether you have little pain or whether you suffer intensely, you should take Wine of Cardui and get relief.

Cardui is a safe, natural medicine, for women, prepared scientifically from harmless vegetable ingredients. It acts easily on the female organs and gives strength and tone to the whole system.

## TAKE CARDUI

### The Woman's Tonic

Mrs. Verna Wallace, of Sanger, Tex., tried Cardui. She writes: "Cardui has done more for me than I can describe. Last spring I was taken with female inflammation and consulted a doctor, but to no avail, so I took Cardui, and inside of three days, I was able to do my housework. Since then my trouble has never returned." Try it.
